

Nikhil Raina
Homework 1
02/01/2021
CSCI.471.02.04

My name is Nikhil Raina. I am a fifth-year international student majoring in Computer Science and minoring in Mathematics and Software Engineering. I have completed all my Co-ops and will be graduating at the end of this semester. To spend some quality time rewinding away from technology, I like to take advantage of campus life by being part of extra-curricular activities. I am a member of a cultural dance club called Tiger Bhangra and the vice-president of OASIS, which is an organization that celebrates festivals from the Indian subcontinent here, at RIT. Other than these, my hobbies are watching sci-fi TV shows, Anime, badminton, swimming and playing games.

“I hereby grant permission for the document to be shared with future classes, which may include the use of my name and corrections to the writing.”
